

## The True Sons of Liberty

# Bill of Demands

(Updated) November 11, 2007

**Whereas We the People**, having a Bill of Rights, being greatly concerned by the actions of the President and both Houses of Congress, asserting our rights as defined in the Declaration of Independence and protected by the Constitution of the United States, do hereby present this Bill of Demands. Heed the advice of the American people you represent or your successor will. True Sons of Liberty do not sell out their country to big business, special interests, and / or foreign governments. Traitors and cowards do. This Bill of Demands is a Constitutional redress of grievances. The Constitution will NOT be ignored. These demands are not negotiable.

President Ronald Reagan said, **“Don’t be afraid to see what you see.”**

The Gipper also said: **“To sit back hoping that someday, some way, someone will make things right is to go on feeding the crocodile, hoping he will eat you last - but eat you he will.”**

### I

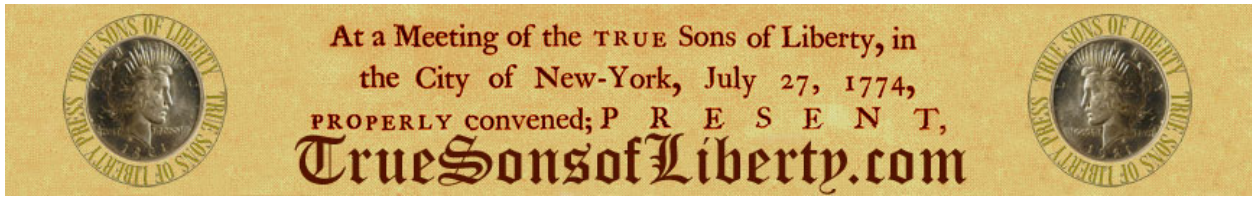

**Resolved**, We demand that Congress and the President stop the largest unarmed invasion in the history of the world and secure our borders immediately in compliance with their Constitutional mandates, to which they are already sworn. Specifically, Article IV, Section 4 of the U.S. Constitution states:

**“The United States shall guarantee to every state in this Union a Republican form of government, and shall protect each of them against invasion.” - Article IV, Section 4**

Note: Any Senator or Congressman failing to acknowledge the simple truth and language of Article IV, Section 4 should be removed from office for incompetence or dereliction of duty at the earliest electoral opportunity (elections in 2008).

### II

**Resolved**, We the People demand that Congress abandon its efforts to revive the unconstitutional Fairness Doctrine. If the American people are turning a deaf ear to extreme or arbitrary rhetoric, and it cannot sustain itself through popular support, then the free market has spoken. Congress and the President have no right to restrict the freedom of speech, period. Senators who are trying to sell this big lie as ‘fairness’ should also look at the mainstream media’s 90% slant to the left on television and in the newspapers. Keep your hands off the 1st Amendment. Only tyranny benefits from suppressing liberty. You swore to God you’d uphold the Constitution. DO IT, period!

### III

**Resolved**, We the People demand the Congress take action to halt the unconstitutional efforts of the President and factions in the House and Senate to create a North American Union, that they refrain from attempting to accelerate a policy which the American people overwhelmingly denounce as unconstitutional, and that they withdraw from the North American Free Trade Agreement, which is anything but fair to the American worker.

**Be it Further Resolved**, Congress should take action to prevent the Security and Prosperity Partnership (SPP) from implementing further regulations to create a North American Union with Mexico and Canada. That any changes made in the laws of the United States to facilitate the implementation of the SPP be reversed.

### IV

**Resolved**, We the People demand that members of Congress uphold their oaths of office by putting the U.S. Constitution and the best interests of the American people first and foremost in every decision they make on our behalf, and that they cease and desist from backroom deals, and treasonous associations with special, and/or foreign interests.

### V

**Resolved**, We the People demand an immediate investigation into the NEA (National Education Association), AFT (American Federation of Teachers), CAIR (Council on American-Islamic Relations), the Roman Catholic Church, LULAC (League of United Latin American Citizens), ACLU (American Civil Liberties Union) , and NCLR (the National Council of La Raza – “The Race”), as enemies, foreign and domestic of the Constitution and U.S. sovereignty. Any organization that encourages the violation of our laws, or applies pressure on Congress and state and local government to refrain from upholding and enforcing the rule of law is obviously an enemy of the state, and should be disbanded, and criminal charges filed as applicable.

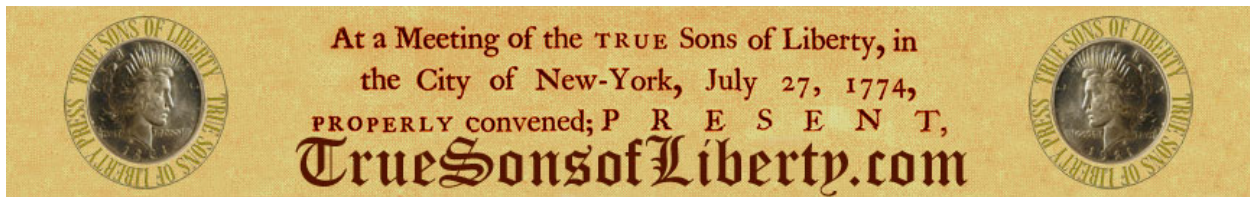

### VI

**Resolved**, We the People demand the U.S. immediately enact legislation (specifically H.B 1940) to clarify the 14<sup>th</sup> amendment as to its true intent.

H.B. 1940 excerpt: Acknowledging the right of birthright citizenship established by section 1 of the 14th amendment to the Constitution, a person born in the United States shall be considered `subject to the jurisdiction' of the United States for purposes of subsection (a)(1) if the person is born in the United States of parents, one of whom is--

`(1) a citizen or national of the United States;

`(2) an alien lawfully admitted for permanent residence in the United States whose residence is in the United States; or `(3) an alien performing active service in the armed forces (as defined in section 101 of title 10, United States Code).'

## VII

**Resolved,** We the People demand that Homeland Security and specifically, ICE, enforce all deportation orders in-hand for illegal alien invaders, and that the criminal alien Elvira Arellano, who was holed up in a makeshift church in Chicago be permanently banned from ever entering the U.S.A. (even if she is named as an Ambassador for Mexico). The separation of church and state does not grant the church, or its members, the right to usurp U.S. law or the U.S. Constitution. The leadership of the Church in which she resided must be prosecuted for aiding and abetting a convicted felon.

## VIII

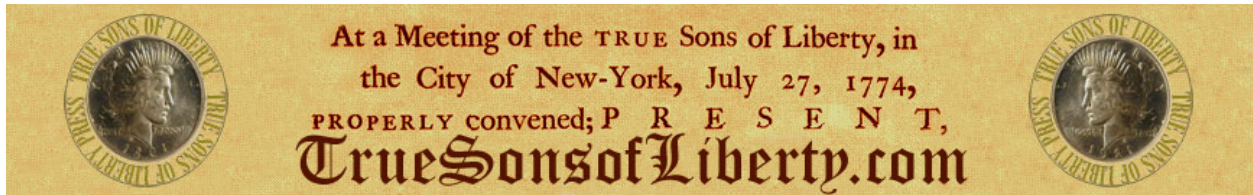

**Resolved,** We the People demand an investigation into the Bush Administration and its unconstitutional uses of the offices of the Secretary of Homeland Security, Justice Department, and Department of Commerce to enter into treaties and agreements with other countries, (a process reserved for Congress), and that the American drafters of the Security and Prosperity Partnership be investigated for acts of treason against the American people, the Constitution, and the sovereignty of the United States of America in their ongoing efforts to create a North American Union. The NAU would undermine the rights of “We the People,” and everything this country has stood for over the past 231 years. The publicly-financed North American Union rantings of Dr. Robert Pastor should be investigated for acts of subversion and treason against the Constitution and the sovereignty of the United States, with a total disregard for preserving this Union for posterity. The President should withdraw from any SPP meetings with the heads of Canada and Mexico. The Constitution does not grant the President the authority to do what he is doing.

**Be it Further Resolved,** We the People demand the Law of the Sea Treaty (L.O.S.T.) be voted down by the Senate as it would eliminate all visage of Sovereignty remaining.

## IX

**Resolved,** We the People demand that Senators recognize the fact that what is in the best interest of illegal alien invaders is NOT in the best interest of the American people, and that Senator Durbin and others abandon the Dream Act, which is a nightmare for American children, granting rights to illegal alien foreign nationals that even American citizens do not enjoy.

**Be it Further Resolved,** We the People demand: All election ballots be available in English only (paper and electronic), cancellation of Executive Orders 13166 and 12803, removal of ESL (English as second language) courses from all facets of taxpayer funded education, and that all governmental business be conducted in English, only. We are one nation, under God, under one flag, with one common language, and one allegiance. Executive Order 12803 exemplifies Benjamin Franklin’s warning about the destruction of a great empire being as simple to diminish as a great cake, “at the edges.” 12803 puts sovereign common property of the people of the United States up for sale to the highest bidder. Generations of future Americans deserve to not have their nation’s infrastructure sold out from under them.

## X

**Resolved**, We the People demand that all federal funding be withheld from states and municipalities that aid and abet the invasion of the United States by providing ‘sanctuary’ to illegal aliens in any form, and that the tax-exempt status be removed from churches and other non-profits that aid and abet the illegal alien invasion of the United States in direct defiance of federal law.

Drafter of the Declaration of Independence, President Thomas Jefferson said,

**“I know of no safe depository of the ultimate powers of the society but the people themselves; and if we think them not enlightened enough to exercise their control with a wholesome discretion, the remedy is not to take it from them but to inform their discretion.”** – Thomas Jefferson

**Resolved lastly**, in commemoration and tribute, on this 233rd anniversary of the true birth of a nation, revisit the words of True Sons of Liberty, who launched the American Revolution two hundred thirty three years ago with these words,

**“That Every Man, Woman, and Child, who doth not agree with our Sentiments, whether he, she, or they, understand them or not, is an Enemy to his Country, wheresoever he was born, and a Jacobite in Principle, whatever he may think of it, and that he ought at least to be tarred and feathered, if not hanged, drawn and quartered; all Statutes, Laws and Ordinances whatsoever to the contrary not withstanding.”**

On this 11th day of November, in the 2007th year of our Lord, By Consensus of We the People!

In tribute to Ebenezer Snuffle, defender of freedom, and true son of liberty.
